The *Gadoni* matt black bathroom mixer range brass is powder coated black and has small chrome detail. The range is considered modern with its straight lines, sleek surfaces and minimalist nature.

This basin mixer height can be used with drop in basins, undermount basins and counter top basins that have a tap hole present.

The *Gadoni* tap has an aerator that adds air into the water flow to soften any potential splashing, and has a flow rate of 6 litres per minute – substantially less water is used than older tap models. This mixer functions best with balanced water pressure.

The Italian quality, design aspects and craftsmanship of this tap range are outstanding and is therefore supported by a 15 Year Guarantee.

This promise is backed up a national service team based throughout South Africa.

The Tivoli product range strongly supports Italtile's LiveGreen ethos threefold: by manufacturing in a responsible manner where the plating plant has zero discharge; recycling all water used during manufacture and it has a controlled, reduced flow rate of 6 l/min.

Note: Product packaged with braided connector hoses with 15 mm connectors.

Functional décor items have morphed from mere usefulness to being objects of delight, and nowhere is this more evident than in the new range of *Prato* taps – beautiful new additions to Italtile’s extensive, top quality Tivoli tap collection.

The *Prato* tap range offers high fashion looks with beautifully rounded forms and finishes, with an ergonomically pleasing pin handle. Matt black has been trending around the globe as a hot, must-have look, and shows no sign of disappearing; the *Prato* range pays homage to this exciting trend with its matt, blacker-than-black looks.
