

Warranty of freestanding bathtub

No man-made damage six months guaranteed replacement, one-year warranty.

Maintenance and precautions

Scratches: If there are scratches on the surface of the acrylic, please wipe it with 2000# water and sand until smooth, and then polish it with toothpaste to be as bright as new.

Temperature resistance: When using the acrylic bathtub, inject cold water first, then inject hot water, or adjust the water temperature for use, so as to avoid the usual visible traces left on the acrylic bottom corresponding to the hot water faucet.

Care: It is recommended to use a soft cloth and toothpaste when caring for the acrylic bathtub.
